

*Connecting people with
research facilities and equipment
in Atlantic Canada*

AFRED.CA

What is AFRED?

- An open access, online, searchable database connecting people with research equipment and facilities in Atlantic Canada
- Promotes increased R&D
- Supports innovation, business development and wealth creation in the region

“One of the most routine questions we get is ‘is there a listing of equipment that we can access; where is it?’ ... Hoping that AFRED can help us answer these questions.”

*Michael Kabalen
Manager, Properties & Incubation
Innovacorp*

What we have so far.....

- 419 pieces of equipment
- 94 facilities
- 19 organizations
 - > Universities
 - > Community colleges
 - > Hospitals
 - > Non-profit associations
 - > Private sector companies

E.g. electron microscope [Search]

Do you have research facilities or equipment?

Submit your facility →

Here's what AFRED can do for you!

- ★ Research Intensification**
Drive research intensification and strengthen the research community in Atlantic Canada.
- 👥 Partnerships & Collaborations**
Foster new partnerships and collaborations between researchers, industry, and government.
- 💰 Cost Savings**
Facilitate cost savings and speed to solutions through access to sophisticated technical infrastructure and expertise.
- 📈 Revenue Generation**
Create new income opportunities for infrastructure owners by listing equipment and facilities available for use.

Stable Isotope Lab - The Earth Resources, Research and Analysis (TERRA) Facility - CREAT Network | Memorial University

St. John's, Newfoundland and Labrador

Contact #2 Brent Myron (Manager of Operations - CREAT Network)

The TERRA Facility's Stable Isotope Lab operates two gas source isotope spectrometers. Materials containing the elements of interest are converted to gaseous forms and isotopic abundances are measured and compared to international standards. Keywords: stable isotope, elemental analysis, education, TOC, IRMS, GC-C ...

EPMA-SEM-XRD Laboratory - The Earth Resources Research and Analysis (TERRA) Facility - CREAT Network | Memorial University

Moving Forward

- Phase 3
 - Analytics
 - Report generation
 - Collaboration with others (data sharing)
 - How to ensure long-term financial sustainability
- And beyond.....
 - A national tool?
 - Pros and cons of existing tools?
 - Collaborate or standardize/choose one?
 - Expand AFRED beyond Atlantic Canada
 - Licensing? Subscriptions? Partnerships agreements?
